LOT STATUS

Plainfield status: John Williamson is still working with the town planner and zoning enforcement officer to continue authorization to race on site. 3/11/08 is the town meeting to introduce the change, then 4/8/08 will be the town meeting for discussion of the issue.

Changes to policies as a result of Plainfield zoning:

- Noise restriction agreement – 85db at property perimeter – sound tests will be performed at tech now
- FM transmitter – no more PA systems – this will reduce overall event noise
- We will need to tape off the fence by the road for no parking – no people parking at the side of the road to watch

Continuing Plainfield concerns:

Lot owners not in contact

We need local business support (Holiday Inn Express) for the town meetings

Autocross Rookie School and first points event cancelled
